FDA Personnel, 7253 '99 MAY -3 110:20

I'm against the Draft Memorandum proposed by the FDA. I'm against the "inordinate amount" definition which restricts the right and availability to obtain medically necessary compounded medications by limiting the prescriptions that specialized compounding pharmacies can ship across state lines.

Once again it appears that the FDA is bowing to pressures from the pharmaceutical houses which mass market their drugs, instead of looking after the rights of individuals and their doctors.

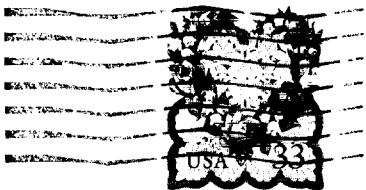

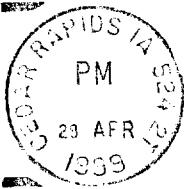

Thank you for your consideration of my plight and that of thousands of others with "small voices".

Yours truly,

Ruth M. Hartig
